Detailed Description

... the survey.

B) Cross sectional surveys

The Digital Survey System has the additional capability to **create** an explicit distribution survey across a cross-section of survey respondent demographics, locale demographics and...

...surveys could be sent to a number of homes and then the responses may be **categorized** later. However, it is difficult to accurately predict how many mailed surveys will arrive at...

...home address could ever be anonymous. Some groups tend to have less time to answer **surveys**.

I 0 The **Digital Survey** System will allow the marketer to specify a survey that is to be distributed to...support queries.

The present invention provides a new and innovative way to acquire and organize **survey** information. **Digital Survey** System **creates** a network of survey devices that are responsible for the presentation and collection of surveys...the Digital Survey System allows the marketers 3500 to specify the survey they wish to **create** and the **Digital Survey** System manages the distribution, acquisition, fulfillment and collection of the agents FIG. 6 illustrates how...

Claim

... the electronic survey into a respondent profile that can be used by logic in subsequent **electronic surveys** to **alter** the way the survey questions for the subsequent electronic survey are presented to the first
